

Golfing... With the Stars

ARIES March 21 – April 20
The winter cold demands highly disciplined play from Arians. Patience and endurance is the key to performance on a heavily frosted course.

LIBRA Sept 24 – Oct 23
An emotional situation may prove too much to handle during your round. Practice detaching yourself and focus on your game. Stay positive!

TAURUS April 21 – May 20
Set long-range ambitions for your game. That fog of insecurity will clear away from your approach and you will enjoy better results.

SCORPIO Oct 24 – Nov 22
A desire to speed up play may jeopardise your judgement. Don't rush your shots. Think things through before acting and walk quickly to the ball instead.

GEMINI May 21 – June 21
Stop cutting corners or you will inevitably find yourself trapped. Didn't you have enough sand play in your childhood?

SAGITTARIUS Nov 23 – Dec 22
Try to think of new, creative approaches and minimise obsessive or compulsive decisions. Relax and enjoy!

CANCER June 22 – July 23
Someone is having an unsettling influence on your golf during and after play. Watch out - you could be hit in the hip pocket.

CAPRICORN Dec 23 – Jan 20
It's easy to be fanatical about a particular issue. Engage sociably with your golf partners and acknowledge their points of view.

LEO July 24 – August 23
You have the opportunity to utilise your creative skills in an upcoming weekend tournament. Keep a cool head and you will enjoy spectacular success.

AQUARIUS Jan 21 – Feb 19
Be careful on the 14th tee. Too many shots into the water or out-of-bounds could result in an emotional meltdown. Keep your feet on dry land!

VIRGO August 24 – Sept 23
Savour the sense of freedom as you put your putting woes well and truly behind you. August and September will bring an amazing improvement in form.

PISCES Feb 20 – March 20
Your prospects for success in the coming months are excellent. Keep practising at the range to attain some dizzying heights during important GLGC events.
